HEMBY HABITATS

ENGAGE IN ADVENTURE

HEMBY HABITATS | \$50 Course

What is a habitat? Students will engage in hands-on activities and identify creatures in their natural habitat including land animals, aquatic life, and birds in the sky at the Hemby Program Center. For grades K-8th.

CREEPY CRAWLIES | \$50 Course

Worms, insects and all creepy crawlies, oh, my! Groups will explore the families of insects and the world they live in. These creatures aren't as scary as you learn about their role in the environment. For grades K-5th.

AQUATIC ECOSYSTEM | \$50 Course

Young scientists will dive into pond life in a natural aquatic habitat. Students will investigate factors that affect the quality of the pond and will look into non-living structural elements that compose the overall ecosystem. For grades K-8th.

FOREST ECOLOGY | \$50 Course

Put on your hiking shoes and trek the trail winding through the forest of Hemby! Identify plants and trees while truly experiencing nature through all senses of sight, sound, smell, and dare we say taste?! For grades K-8th.

OUTDOOR LIVING | \$50 Course

Experience and discover the many aspects of outdoor living; including off-the-grid living, camping, fire safety, first aid, survival techniques and learning to take care of the world we live in. For grades 3-8th.
